## PROFESSIONAL SUMMARY

---

A proactive Computer Science Engineering student with a strong enthusiasm for Machine Learning and Software development. Proven communicator with hands-on project experience and campus leadership, seeking to apply technical analytical skills and strategic thinking to a professional role.

## EDUCATION

---

|                                                                                                                  |                        |
|------------------------------------------------------------------------------------------------------------------|------------------------|
| <b>Lakshmi Narain College of Technology, Bhopal, M.P.</b><br>Bachelor of Technology (B.Tech) in CSE — CGPA: 8.22 | <b>  2023 - 2027  </b> |
| <b>Little World School, Jabalpur, M.P.</b><br>Senior Secondary Education (CBSE) — 85.6%                          | <b>  2022 - 2023  </b> |
| <b>Little World School, Jabalpur, M.P.</b><br>Secondary Education (CBSE) — 93.16%                                | <b>  2020 - 2021  </b> |

## SKILLS AND STRENGTHS

---

|                                                                            |                                                                          |
|----------------------------------------------------------------------------|--------------------------------------------------------------------------|
| <b>Languages:</b> Python, HTML5, CSS3                                      | <b>Tools:</b> Git, GitHub, Jupyter Notebook                              |
| <b>Frameworks:</b> Flask, Streamlit, Tkinter                               | <b>Core:</b> DSA, DBMS, OOP, Cybersecurity                               |
| <b>AI / ML:</b> Scikit-learn, Pandas, NumPy, Regression and Classification | <b>DSA:</b> 200+ Coding Questions in Java (LeetCode and Geeks for Geeks) |
| <b>Databases:</b> MySQL                                                    | <b>Soft Skills:</b> Team Leadership, Event Management, Public Speaking   |

## PROJECTS

---

**Movie Recommendation System** — Fetch movies similar to your favourites in one click

- Built a dataset of 10,500 movies using the TMDB API; engineered tag vectors and a similarity matrix to generate personalised recommendations
- Deployed using Streamlit | Tech: Python, Pandas, Scikit-Learn, NumPy, Streamlit, API Integration

**Predictive Pulse** — Hypertension Intelligence System for blood pressure stage prediction

- Evaluated 7 ML algorithms; deployed Logistic Regression achieving 100% accuracy on 1,825 patient records with 13 clinical parameters
- Implemented 4-stage hypertension classification with personalised clinical recommendations and real-time confidence scoring

**Deployed:** [predictive-pulse-harnessing-machine.onrender.com](https://predictive-pulse-harnessing-machine.onrender.com) | Tech: Python, Flask, Scikit-learn, HTML5, CSS3

**SIH Project — AyurSutra** — Ayurvedic appointment and medicine web platform

- Contributed to the AI/ML section; trained and deployed a chatbot improving website navigation and query resolution for users

### ML Models

- Rock vs Mine Predictor
- Plant Disease Classification
- House Price Predictor

## ACTIVITIES

---

**Vice President, Entrepreneurship Cell, LNCT**

- Led the team in securing 34<sup>th</sup> Rank in the National Entrepreneurship Challenge in affiliation with IIT, Bombay

**Event Management Lead, Orators Club, LNCT**

- Organised and executed numerous campus-wide events to promote public speaking and analytical thinking
